Answered Question 125

Skipped Question 4369

- 1 Health crisis not handled well by CIL nurse. She was having seizures and nurse left; consumer switched nursing service.
- 2 I've been unable to get an attendant approved.
- 3 It's hard to keep help. I hire family when I can, but they don't always want to work. Then I have to do without.
- 4 It's hard to keep a worker.
- 5 I don't have an attendant. I'm switching services. I am not happy.
- 6 I need more services and DHSS won't provide overnight.
- 7 would like hour long more per week
- 8 My attendant doesn't always come to work, so stuff doesn't get done.
- 9 I have to do all the work. The CIL makes me do all the paperwork.
- 10 Satisfied with CIL service, but we think my attendant was an addict, we just started back up 3 months ago with our "daughter" but I had to let her go. It's hard to find someone you can trust in your home.
- 11 I liked my old aid and don't really like my new one.
- 12 Still waiting for my assessments.
- 13 Had a bad experience with my current aid.
- 14 Haven't found anybody yet.
- 15 I have spend down issues that affected service.
- 16 Declined to answer.
- 17 Had been on CDS before with a CIL and this time DHSS stated I did not meet qualifications, not once, but twice.
- 18 The referral list could be deeper. The prior attendant quit without any notice and I was left in a position without having anyone. The CIL has no power when it comes to this. This attendant was taking more hours with another consumer. I had no notice. The CIL had no power to institute any forcing of the attendant giving more notice.
- 19 Timesheets were lost in the mail.
- 20 They torn up things.
- 21 It took a long time and many corrections to get my attendants approved.
- 22 I am currently without an attendant and looking for a new one.
- 23 I haven't had a worker for several months. I'm mad because it's taking a long time for my son to obtain a good cause waiver.
- 24 I've been struggling to find a new attendant. All the ones on the list have not returned my calls.
- 25 Consumer had to quit getting in-home care because he could not afford it.
- 26 In-home had so many different aids that it's hard to get used to.
- 27 Very dissatisfied with the in-home person. All she does is watch TV and she doesn't even show up half the time.
- 28 One of my workers wanted a change and a change was made, but it I didn't know it was my responsibility for replacing her.
- 29 She would go through things and rearrange things in my house.
- 30 every other day don't show
- 31 Dissatisfied with office services because it took so long to get the in home care started.
- 32 Calling in not working well, not getting paid like they should. Call in service not effective.
- 33 if my worker wasn't so lazy
- 34 The new phone system you implemented is problematic. It is a major pain in the butt.
- 35 It would be nicer to have internet access to keep track of attendant hours.
- 36 Getting the right people to do the job.
- 37 With the right helper it was good
- 38 They refuse to pay my PCA if the date is not on the timesheet. They mail it back to you. It takes forever. It's not right. You can have one day off and they don't get paid. I think that's fowl.

<i>Answered Question</i>	125
<i>Skipped Question</i>	4369

- 39 The attendant does not get paid enough for all that she does for him.
- 40 I was not getting the kind of care hat I needed.
- 41 Received In Home Services and did not like the Personal Attendant or the person who signed her up for services
- 42 I need someone every day. I can't cook for myself. I have a temporary home aid once a week until they can get me a regular worker. I have changed services last month and it is hard to get someone everyday.
- 43 I couldn't keep an attendant around. They always quit on me. I don't really know how to make it better.
- 44 She stated that she wished she qualified for more hours.
- 45 Very dissatisfied with the person who came to my house to help me. I had to tell her what to do and how to do it.
- 46 Was satisfied with service until her daughter quit working for her and then she could not get another trust worthy worker
- 47 I think the attendants should get mileage.
- 48 Because of spenddown
- 49 She didn't understand why her services were terminated.
- 50 I think my attendant is underpaid.
- 51 There's one aspect of our CDS program that makes it difficult for me. Because of the limitation that attendants can only work for one participant at a time regarding finding available attendants.
- 52 I couldn't get good help and had to go to an in-home and couldn't get them because their in-home did not cover my county
- 53 Provide more information.
- 54 Their payroll is messed up! That's the only thing. When they switched from timesheets to the phone it became a problem, it's unreliable. I know they did it for a reason though.
- 55 To find out how someone works before they are hired
- 56 The services would have been good to continue but due to huge increase in her spend down she chose to close the services. Her spend down amount went from \$24 to \$443. She said there is no way she can afford that. Consumer was referred to talk to Medicaid specialist if she wanted to see about meeting spend down later.
- 57 For the most part the consumer was satisfied with being able to have an attendant but just before March of 2016 she was told she would no longer be Medicaid eligible and be treated under the breast cancer plan - because she turned 65. She wasn't aware of this at the time and her attendant (who has 2 kids to support) worked 3 days and didn't receive pay for it. The consumer received a letter stating she wouldn't be eligible after the fact - after her attendant worked the 3 additional days. Consumer feels like "the government dropped a bomb on her". Now she has to pay \$165.00 a month for a Medicare supplemental plan to continue treatment at home. Consumer said she has a machine to use at home to treat Lymphedema and she's not able to use it. She said there are 3 different things that have to be hooked up and she's not able to do it on her own. So she isn't using the machine. She said she has developed tremors due to the stress of everything.
- 58 I could use more hours as my lupus is getting worse
- 59 Consumer states he only receives 45 minutes a day x 7 days. He said that's just not enough time. He feels when he put in for extra time they didn't allow him to answer the questions right. He said they basically told him since his girlfriend lives with him she would be able to do most of the work the consumer would need. Consumer said he may be moving again later and check then about getting more time. He said having an attendant is a good thing and it's helpful for him; but just not enough time with only 45 minutes a day.

- 1 It would be much nicer if they would take people to see if they can use furniture items before they purchase them. They bought me a couch and love seat and I can't sit on either one of them. They are so soft and plush, and kind of high, and I can't get out of them because my left side is paralyzed. My mattress was too soft too, and too high. My best friend bought me a new mattress.
- 2 Was denied MFP due to dementia.
- 3 Not sure
- 4 I was told that I needed to tell places I was "crazy" to get into housing. The program never got me furniture or housing or any help. I was just told that I needed to get on wait lists that were 2 years long.
- 5 Did not like not being at home. Did not like strangers taking care of me.
- 6 If they followed up more.
